American League Opens This Afternoon

70000 Expected At Stadium In New York City

By HENRY L. FARRELL
(United Press Staff Correspondent)

NEW YORK, April 17.—Seventy thousand fans, the greatest gathering ever at a baseball game, and with the exception of the Dempsey-Carpenter fight, the greatest crowd ever at a sporting event in this country, will be present this afternoon at the dedication of the new Yankee stadium and the opening of the American League baseball season.

In the new structure, which the noted New York Colonels Ruppert and Huston erected at a cost of more than \$2,000,000, the champion New York Yankees and the Boston Red Sox will crack a game of baseball on the bow of the immense structure, and the season will be off.

The formalities of the dedication will be with the price of admission and the celebrities filling the boxes and posts of honor will exceed the value of the stadium.

Governor Al Smith will take out the first ball, and will hold the position as the ranking dignitary in a group of guests that will include Mayor Hylan, Police Commissioner Enright, presidents of all the Metropolitan Bourough; Major General Bullard, General F. W. Shadon, as well as the big figures of the New York political, professional and commercial world, and the representative of all the soldier and war relief organizations.

With auspicious ceremonies the National Colors will be raised on the towering flagpole, and under it will run up the American League pennant for 1923, the second won by the Yanks.

Of the team that the "Paying Color" bought in 1913 for \$100,000 only two remain on the present championship club. Pitcher Bob Shawkey and Firstbaseman Willie Pipp. The opening day crowd of the Colonel's first season as magnates drew 15,000 fans. Today after seven years in which they have taken chances that cast doubts upon their business acumen, these two colonels may have the privilege of viewing long lines of cops holding back crowds that cannot get into a vast amphitheatre that will hold 70,000.

Bob Shawkey, one of the first ball players to enlist during the war and the idol of the Yankee fans, has been given the honor of pitching the first game and he probably will be opposed by Howard Ehmke, a newcomer to the Boston ranks from Detroit.

All of the reserved seats had been sold this morning when a bright, warm sun broke through clear skies and added the city with more than spring heat. Fifty thousand unreserved seats, more seats than were available in any park last season, will be placed on sale at noon when the gates open.

As it will be the opening of the season and the dedication of baseball's greatest monument, so also it will mark the return to baseball of Frank Chance, who rose to heights as the peerless leader of the old Chicago Cubs and who later touched the depths as the pilot of the Yanks when the New Yorkers were floundering around in their lean days. "Old Buck" will make his debut as manager of the Boston Red Sox, the second team of the Yanks.

Miller Higgins, manager of the Yanks, promised this morning that Everett Scott would be able to start his 98th consecutive game at shortstop. An injury to Scott's ankle sustained a week ago made it feared for a time that he would not be able to start and that the most marvelous record of stamina and iron man work in baseball would reach the end. With Scott at shortstop the Yanks will present the same line-up that won by one game the pennant of 1922.

Legislature Is Down To Work

AUSTIN, Texas, April 18.—With the initial flush bills and resolutions over and with Governor Pat Neff having relieved himself of what he thinks about means of revenue and law enforcement, the second call session of the Thirty-eighth Legislature is settled down to routine work today.

Practically all of the legislative work during the next few days is expected to take place in committee rooms as various measures are considered.

Governor Neff's quo warranto officers' ouster bill, included in recommendations incident to his message yesterday, is expected to cause the biggest fight of the entire special session, but until actual consideration of it begins in the Senate nothing especially interesting is anticipated regarding it.

Other recommendations for legislation made in Mr. Neff's law enforcement message were:

Strengthening of the prohibition laws.

A law providing that in criminal prosecutions counsel for the state shall have a right to argue the fact that defendant failed to testify in his own behalf.

The so-called anti-technicality bill, providing that no case, civil or criminal, shall be reversed for technical reasons that do not in any way touch the merits of the case.

The house yesterday reported favorably the bill levying a 5 per cent production tax on oil, and the Smith bill providing for collection of delinquent taxes.

The bill levying a gross receipts tax on athletic exhibitions, motion picture shows, bowling alleys, and cold drink dealers was reported unfavorably in the house, but a minority report favoring it was also handed in.

The Senate committee considering the bill forbidding the prison commission to pay notes for deferred payments on the Fort Bend cotton oil mill at Richmond reported that measure favorably.

CLASS CONTEST IS UNCHANGED ACCORDING REPORT

The contest in the election of a May Queen for the High School carnival remains unchanged today. The standing as reported Tuesday is the same with another thousand votes being credited to Dorothy Parker, Senior.

The other classes have not turned in their votes that they are keeping up their sleeves and which are keeping all others guessing. Each class knows that the other one is holding back votes but does not know how many.

Jesse Mae Sherrill has 1960 votes; Miriam Bass, 1636 and Mary Porter Traviss, 1660, according to the last tabulation.

The contest continues with interest increasing and the spirit of rivalry between classes characterized by fairness.

A member of the Freshman class describes it as follows:

"On We Go With the Queen When we started this race, It seemed so much in fun But now we all realize, We must all take a run."

Now the "Seniors" come first, The "Sophs" then come round The "Juniors" take a start, The "Fish" are always bound.

Of course, we're last, And we'll make you frown, When we once get a start, We'll surely get the crown. (The thing we're after).

We hope there will be no hard feelings And may no one shed a tear But only take it with ease, And wish them luck next year.

Dancing Contestant At Houston Charged With Army Desertion And Now Faces Arrest Charge

HOUSTON, Texas, April 18.—V. V. Vestal, 23, who with Miss Goldie Hughes established a record of 40 hours and 10 minutes for partnership continuous dancing at the dancing contest here recently was under arrest here today on information from San Antonio that he is a deserter from the United States army.

Deputy Sheriff J. B. Gordon, who made the arrest is expected to take the prisoner to San Antonio today.

According to information here Vestal is alleged to have deserted March 6, from Fort Sam Houston. Officers there reading an account of the dancing contest in San Antonio papers recognized his name and wired authorities here requesting that he be placed under arrest.

Strengthening of the prohibition laws.

Railroad Rates On Lumber Said To Be Too High

WASHINGTON, April 18.—Certain railroad rates on lumber from Texas points to gulf ports, Laredo, Texas, and New Orleans, today were adjudged unreasonable by the Interstate Commerce Commission. Reparation was awarded the Kirby-Bonner Lumber company which complained against the Dictator General of Railroads.

Trolley Hits Auto Three Are Killed

CINCINNATI, O., April 18.—Three persons were killed instantly and one may die as a result of a crash between a street car and an automobile here today.

The dead:

Dr. William Kratz, 28.

Roland A. Myer, 36, Packing company official.

Mrs. William Ender, 25.

The injured person is Mrs. Margaret Nebergall, 22, who suffered scalp lacerations and concussion of the brain.

Car men said the autoist piloted his machine directly into the oncoming tram. The automobile was wrecked and its occupant hurled through the windshield.

TEXAS TABLOIDS (By United Press)

DALLAS.—Dressed in a "King Tut" dress, woman sat in the rear of an automobile in the downtown section here last night and calmly watched her two male companions hijack R. F. Jordan and relieve him of \$38. Police are searching for the "flapper bandit," who was described as "young and beautiful."

SAN ANTONIO, Texas, April 18.—Nineteen locally owned pigeons broke the world's carrier pigeon record this last week end, it was made public last night. The birds were liberated at Kansas City Saturday. The first one flew the distance of 705 miles in 12 hours, 51 minutes and 40 seconds. Nineteen of the flock broke the record for that distance.

MARRIAGE LICENSES

OIL

Important developments during the past few days at the Moody well at Teacanaca, which is about to be completed, have commanded the keen attention of the oil men of the Mexia district and several lease deals and royalty interests have been consummated. Today Judge H. B. Daviss and W. L. Adamson announced the offering of undivided lease assignments in ten acres directly offsetting the Moody well.

There was considerable active trading in leases that adjoin the Moody lands and it is reported that one deal was made Monday for one hundred dollars per acre.

The bringing in of this well would mean more to the oil and general business interests of Mexia than anything that has happened since the bringing in of the Roger's discovery well by Col. Humphreys several months ago. It will mean the development of extensive territory to the north and northwest of the main Mexia field. Parties interested in the Bounds lease where Gov. Swisher has two wells under development were here yesterday and they plan to begin work at once on the wells they have already started.

The Moody well is now being drilled with standard tools and the drilling is in charge of Fred Hogue, who has had an extensive experience in standard drilling in the fields of Oklahoma and Kansas, who is watching every foot of the drilling. To show that the driller and his crew have faith in this well they have put their money and are giving their labor in exchange for interests in the well and acreage. Scouts of the big companies and oil operators are on the lease daily and watching every move. Oil and gas and other indications that mean much to oil men have been found during the past few days.

W. L. Adamson, with Judge H. B. Daviss who are making the offering for undivided interests in the ten acres that adjoin the well are meeting with a good response from the people of Mexia and outside interests. It will be remembered that Mr. Adamson is owner of the famous tract in the main field that has produced a fortune in royalties and he is an old time Mexia resident. The Moody well has been several months in development and it has been through the efforts of Charles P. Tindley and Fred H. Butcher, who were early operators in the field with Judge H. B. Daviss that the development has been made. They also have several Houston and Goose Creek oil men who are financing the drilling of the well.

Big crowds are at the well daily and it is estimated that more than a thousand people were there last Sunday.

CHICAGO, April 18.—Railroad workers of the country believe they are in line for pay increases.

Representatives of more than 2,000,000 employees are preparing to go before the railroad labor board

and demand wage boosts to the 1921 peak. Recent increases in business placed the companies in a financial position to meet the advance in pay, union leaders contend.

Charged Chicago Police Are In League with Vice

CHICAGO, April 18.—A crusade against vice, bootlegging and graft in Chicago was ordered today by Morgan A. Collins who yesterday succeeded Charles Fitzmorris as chief of police.

Scores of vice dens, saloons and gambling houses were reported to have been closed overnight in anticipation of the order.

Collins issued his sweeping edict in a conference with District captains. He declared that policemen were participants in bootlegging rings and were accepting graft.

He declared that officers of the law who fail to suppress commercialized vice, gambling and bootlegging will be dismissed from the Department.

Christians Fleeing From Turkish Cities

CONSTANTINOPLE, April 18.—Christians are fleeing from Alexandria owing to strained relations between France and Turkey, according to the official Anatolian News Agency.

Five hundred Armenian families already have departed from the city. An outbreak is feared as a result of recent disagreements, including that over the Chester concession to the United States against which the French have protested to Turkey.

The second cut in one week came today when the Standard Oil Company reduced gasoline to 16½ cents a gallon here. Two other reductions of one cent each previously had been made. The announcement of the Standard Oil Company was followed by statements that other filling stations would meet the new price.

The Standard Oil Company made no explanation in announcing the new price.

"Gasoline at the present price is being marketed at a loss," O. H. Williams, president of the Mutual Company said. But we must meet competition at any cost. I estimate we will lose about two cents on each gallon at the new price."

Save from \$52 to \$78 a year

You will be amazed to see how the use of "Bull" Durham will cut down the cost of your smoking.

How is it possible to give you quality at the low cost of 10 cents for 50 cigarettes?

ANSWER: The government tax alone on 50 machine-made cigarettes is 15 cents—**5 CENTS MORE THAN THE COST OF 50 "BULL" DURHAM CIGARETTES TO YOU!**

The average smoker saves \$1 to \$1.50 a week by "rolling his own" from "Bull"—or from \$52 to \$78 a year. This makes quite a Christmas fund—or pays for a fine trip.

"Say It with Cement!" Center's Slogan

By HENRY L. FARREL

United Press Sports Editor.

NEW YORK, April 18.—Little Center College, from the hills of Kentucky, is spectacular in everything it does. That is one large reason why Center is no longer little. With a spectacular football team that appeared in every way to the imagination, Center blazed her name in big letters all over the country and her team grew right out of Danville.

Center is going out after a new stadium and the college leaders are going about getting it in the same spectacular way. A campaign slogan of: "Say it with cement" was adopted, and friends were asked to "kick in" with a barrel or two. More than \$20,000 was raised around Danville, but that will not be enough.

"Uncle Charley" Moran, the football coach, who mends the shoes of his boys and sews their uniforms, went about the new project with the same vim and enthusiasm. Uncle Charley and his footballers did all the grading of the field and they are going to do as much in actual construction of the stadium as they can.

Approximately 18,000 barrels of cement will be needed to build the stadium, and it comes at \$3.15 a barrel. On section costs \$500. The "Prayin' Colonels" want some of their friends in the east to:

"Say it with cement."

Ping Bodie used to be one of the "eatinest" ball players in the big leagues when he was playing the outfield and clowning with the New York Yankees. His talent at the table once led a humorist among the baseball writers to propose a spaghetti eating contest, in which he would back Ping against all comers.

Ping heard about it after he had left the big leagues and was playing out on the Pacific Coast and his warm Latin blood boiled with indignation.

"I eat less than anyone on our ball club. As Essick, the (manager). He allows me three bucks a day for grub and I only spend one."

If the price of spaghetti is not higher in California than it is around Little Italy in New York, Ping could get enough yards of the dish for a buck to fonder a couple of less ravenous appetites.

Many Americans In London to See Royal Matrimony

LONDON, April 17.—Legions of American sight-seers are descending upon London to catch a glimpse of royal splendor in matrimony.

The wedding of the Duke of York, who some day may be King of England, to Lady Elizabeth Bowes-Lyon, scheduled for April 26, is the object of their curiosity and the increasing numbers landing from every boat from New York caused one newspaper to remark: "It is the typical democratic love for the aristocracy."

With these new arrivals and the hastening of preparations for the marriage ceremony, London town itself is beginning to take on a carnival appearance.

A brilliant, luxurious pageant setting is being prepared for the regal ceremony. Presents are pouring into the royal residence, stands are being constructed along the route the wedding procession, tickets for the reserved section are being eagerly sought, the aristocracy of England is preparing and newspapers are filled with news of the impending royal wedding.

Lady Nancy Astor, always distinctive, sent to Lady Bowes-Lyon today one of the curious little articles of furniture peculiar to Europe called a "what not." It is an arrangement of mahogany shelves which would stand in the front parlor of a "Mun street" home and contain all the trinkets and bric-a-brac of the household.

The papers are reviving rumors that the Duke is slated for appointment to an unnamed Colonial governmentship.

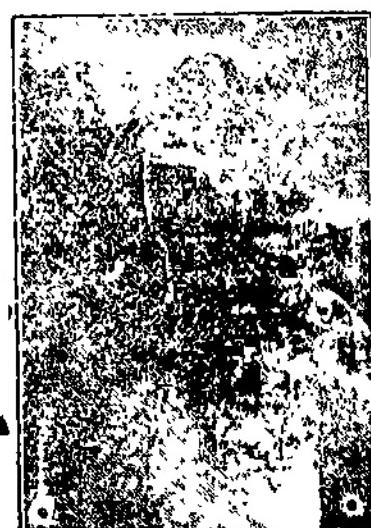

Still In the Air

DAYTON, Ohio, April 17.—Still in the air after twenty-one hours of continuous flight Lieutenants John A. MacReady and Oakley Kelley, in the huge army transport T-2, at 7 a. m. today were circling their course at a steady pace.

Shooting at a new world endurance record which they have determined to wrest from the French Air service, the premier pilots have already established a speed record of seventeen hours and seven minutes for 2,000 kilometers.

To equal the French endurance record the T-2 must remain in the air until 7:10 p. m. today.

Ground observers declared the roar of the low compression engine as the T-2 swept over the forty-eighth lap of its triangular course indicated the plane is behaving excellently.

Austin Rangers To Be Welcomed As League Opens

AUSTIN, April 18.—Extensive plans have been made by local business men and sport followers for the opening day here of the Austin Ranger baseball team, the stockholders of which are 20 Austin business men and professional men.

The Rangers after a two-day stay in Waco in contests with the Waco Indians, will return here next Saturday for the initial Texas association game to be played in Austin.

The Sherman Red Sox will be the opposing club.

Will Stage Parade
A majority of local business houses will close up Saturday afternoon to give employees and employers alike time to attend the game.

According to President Doc Brownlee of the Rangers, Austin business men and both Sherman and Austin teams will stage a parade at 1:30 the afternoon of the contest.

Win That Trophy.
President Davidson of the Texas association has put up a magnificent loving cup to be awarded to the chamber of commerce of the town in the circuit that shows the greatest opening day attendance.

Austin fans will compete with Marlin, Mexia, Sherman, Corsicana and Waco.

Manager Johnson of the Rangers is not as yet in a position to name his mound selection for the game. Both team managers will make this announcement during the coming week. One point of interest local fans will have in the visiting team is that Ralph Swede Lind, local athlete, is a member of the Sherman hurling staff.

Lind is a right hander and stood

all the boys on their heads last year in the T-O league. He will in all probability be used on the mound against the Rangers one of the initial contestants played here.

Swede is a popular athlete both here and in Sherman. He is cousin to Otto Swede Lind, who left yesterday morning to join the Roswell club of the Panhandle-Pecos valley league.

The Rangers are now in Houston playing exhibition games with the Houston Buffs. Johnson and his crew will return tonight to the city and train Monday, Tuesday, and Wednesday for the Waco contests Thursday and Friday, then comes the big day for Austin fans Saturday.

Lake Austin Game Postponed

There are possibilities of the Rangers and Longhorns staging an exhibition contest today.

Coach Billy Disch and his varsity athletes are behind the club. The short horns were scheduled to play the Lake Austin Independents on the same day that the Rangers open here, but Disch has called the contest off so that his men can attend the Ranger-Sox battle.

Entered as second-class matter, February 26, 1919, at the Postoffice at Mexia, Texas, under the act of March 3, 1919.

WHEN DOES AN OFFICER'S DUTY END?

No peace officer should decide the measure of a man's guilt. That is what courts, judges and juries are for. In this country every man is considered innocent until proven guilty, despite what the officer making no arrest may have every reason in the world to believe. This is said with particular reference to receipts that are said to have been issued promiscuously by officers and alleged officers in various portions of Limestone County. It is not known in what numbers such receipts for fines collected have been issued, but many times, the complaint has been heard and the charge made that men posted to be officers of the law as well as officers themselves have received monies on the spot when they made an arrest, turned the victim loose, and then left a question in his mind and in the minds of most citizens as to just where the fine went. The practice is not allowed to be very general but however few such acts may have been, they were thought with evil results and no amount of effort to suppress reports regarding them could possibly have succeeded. First, they give the breaker a chance to pass on the laws. Secondly, it affords temptation to many officers, however honest and upright, in that they might be. Thirdly, it gets tongue to waggle and the eye to the lips of those. Fourth, it can start a riot. And above all, it is not right. It is not the way to do things in this country.

Nothing less than the Federal administration is always entertained for the peace officers, chief of police, constable, sheriff or their deputies who are afraid and treacherous, based upon the fact that they take when inducted into office. Under the very best of conditions, this task is difficult. Without them the world would soon be dominated by the anarchist and other nests of the Evil One. They protect the business man's home while he is in his store. They protect the farmer's family while he is in his field or in market. They protect the children while at church and the churchgoer while he worships God. The world may offer higher salaries to others and others higher in no called honor, but no one or class of men can compete more for peace, safety and happiness than the Officers of the Law who conscientiously perform their hard tasks before the eyes of the public and not from individuals.

THE GOLDEN CROWN PRISON

Now comes a sixteen year old boy from Washington, D. C., claiming that he had been kidnapped and mistreated in such a manner as to cause the wild surge of barbarian hate to look with cautious eyes on the country in the targeting gunn of Senator W. J. English of Florida, where he was so abused, according to his allegation. However, one does not have to look beyond the borders of Texas to find plenty of rugged peddlers for a discussion of the practice and improper treatment of inmates in jails, penitentiaries and prison farms. He does not have to confine himself to any particular period of time, either, for it seems that maximum treatment has been applied there in the shadows of penal banality even prior to the time that galley slaves were considerably beaten while their tools were beat to the ears of the ancient navies. Jesus, Himself, took note of the

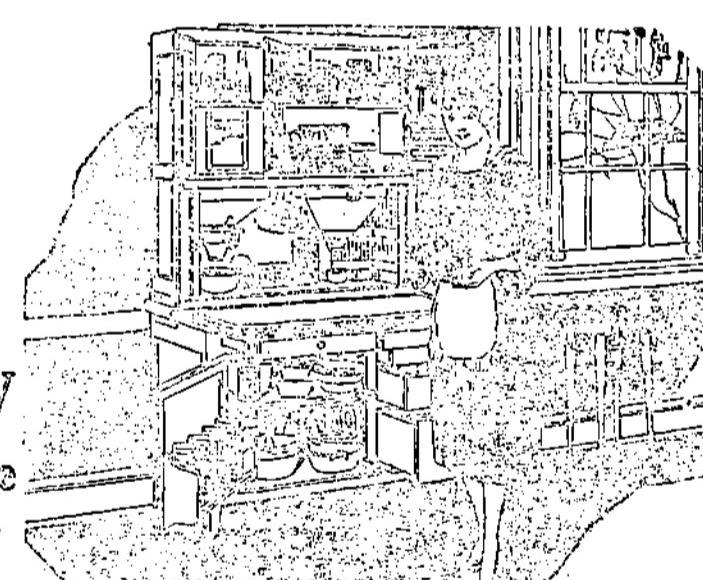

"LIQUID GOLD"

—Night the popular Love Time Revue, which has been entertaining packed houses nightly at the Opera House will present a new play of the oil field is entitled "Liquid Gold". The story is about the doings and love affairs of some oil field workers, who are partners in an old well that turns into a gusher and makes the oil rich. The comedy is rich and there's loads of it. Billie Van Allen carries the chief load as an oil oil field worker, who never likes to work, and Ethel Monroe as his wife, who threatens to turn him out if he is able assistant in the funmaking. All the big cast of principals will also have good roles, and there will be plenty of tinkling, whistling, peppy musical numbers, led by the singers and danced by the nimble bunch of chorus girls that the show is noted for.

The comedy must be seen to be appreciated. An entire catalogue of pictures will also be shown.

prisoner's need of a friend, in that marvelous scripture where among other things He said "I was in prison and ye visited Me."

Mayor Ernest Watson of this city has the proper view point in regard to the kind of treatment that should be accorded men and women who may be arrested. The other day, he admonished a peace officer here that when he makes an arrest, he should place himself in the position of the one arrested and then treat him as he would like to be treated if in the same shoes. His words, too, should be heeded by the County which is now using the City Jail here.

When America relinquishes its claims and its proud position in the world of being a Christian nation; when its citizenship are content to see its Constitution torn to shreds and trampled beneath the iron foot of oppression, and when each officer and every jail are acknowledged as being the law unto themselves, then will be the awful beginning of that frightful rule when the Golden Rule may be disregarded as of no consequence and without discipline.

Until then, however, let the application of its doctrine be injected daily into all walks of life, even into prison cells.

The News invites the public to discuss the subject in the editorials appearing in this paper daily, and especially with reference to the one appearing Tuesday, when it was urged that distinguishing names be applied to our schools, library, Y. M. C. A. and cemetery.

Quarter Million Cars and Trucks Built First Two Months of 1923

With a production of 180,577 cars and trucks during February, the Ford Motor Company topped the quarter million mark for the first two months of 1923. This figure, far in excess of the production for any similar period in the history of the company, is more than two and a half the output for the same period of 1922. These actual figures show 250,000 cars and trucks for January and February, 1923, as against 99,722 for the first two months of last year. For eleven consecutive months the production has gone over the 100,000 mark.

These figures indicate the increasing popularity of the Ford car, due to the low price and recent improvements which have been made on all models, as well as the decided upward trend of general business conditions. March output is set slightly less than 150,000.

The Gift of Eve

By Fred Hill

"I have no man, I have a say now. I like to get what I have two thirds of."

"I like to get the original gift which I have had to cover over and over again, where balanced on a scale, it is a full length mirror. I have a chink beside a fireplace, it seems as though the world of alabaster has been broken in two in the terms of I like to get and to torment."

"I like to get the man who is bent over her who by the most of all the time he's left so often, it is the woman he started with every adventure, who I envied and envied—I tell a woman after she's past her birthday."

"I like to get the greatest of all gifts is the knowledge of what to do with the gift you have. And the best of it is, this is a gift that can be learned by a very little study—and there really isn't any limit to entering the class!"

Line—the Most Important Thing of All!

A sense of color is a much com- moner gift of Eve to the woman who loves clothes than is an appreciation of size or a lovely line, knowledge of the importance of proportion. This is the gift of the woman who has emphasized too long a leg by too short a skirt. Remember the women will lingo feet who drew attention them (and still do) with shoes fantastically long and pointed when the modified trench coat would have been so much more becoming. Consider, by the million the women with thick ankles who cry them to all the stores with stockings of a color contrasting with both skirt and shoes.

But above all things, this is the gift of the women who have destroyed the most.

stand all the vagaries of the dressmaking art and appear to advantage no matter what the makes. The very over-emphasis of which we're now so conscious may be the direct result, not of our own development, but of our corsets.

If this were all, it would be bad enough. But a corset's sins go still deeper, if they begin at all. The prolated abdomen that undermines the health of some of us, the backaches that rack the dispositions of others of us and send John to the club—these may be the work of the little pink demon with the bones in the wrong place. And bad health spoils the complexion that we've spent so much time coaxing, and deadens the lustre of the most-brushed hair, and kills joie de vivre as Pharaoh.

Understanding your type is the first step toward buying the right corset, and is one of the most important aids to beauty you will ever find.

CHANGE OF LIFE

Florida Lady Was in a Miserable Condition, But Says She Found Cardui Helpful, and Got Well.

Altha, Fla.—In explaining how she found Cardui so helpful during change of life, Mrs. Ella M. Bailey, of Route 2, this place, said:

"I became so weakened it was an effort for me to get around. I knew what was the matter, but I felt like I couldn't give up."

"I just dragged, and I certainly was nervous. I was so restless I could not sit down long—yet so weak I couldn't get about. It is a most miserable and such a helpless feeling."

"I would get depressed and out of heart."

"I began to feel, after awhile, there was no use to try to get well. This is all wrong for it makes a person worse."

"I had heard of Cardui, and thought it might strengthen me. A neighbor had used it with good results."

"I took one bottle (of Cardui), then I saw I wasn't so nervous, so kept it up."

"Gradually the nervousness left me. I began to eat and sleep better. Was soon well and all right. Cardui did wonders for me, and I certainly do recommend it."

"Thousands of other women have written to tell of the beneficial results obtained by taking Cardui, and to recommend it to others."

George Petty was to leave today with R. H. (Dick) Bordeaux on an extended automobile trip throughout South and Southeast Texas. Mr. Bordeaux is his associate in business, recently opened under the firm name of the Western Sales Agency, with headquarters in Dallas. Mr. Petty states that already orders for products are pouring in to the Western Sales Agency and both Mr. Petty and Mr. Bordeaux expect to place their firm on the map throughout the section which they will tour. They will go as far south as San Antonio and then through Galveston, to the coast, thence to Houston and home.

**NEW MEMBERS TO BE
WELCOMED AT SOCIAL
SERVICES THIS EVENING**

Rev. W. B. Andrews of the First Methodist church announces that the dinner and social hour at the church tonight will be in the form of a reception to the second fifty new members that have been taken into the church here this conference year. In all, there have been about 125 new members received. The reception to the first fifty was given several weeks ago. The hope is expressed that every member, man and woman alike, will be present at the reception this evening.

More than 500,000 women in the country now earn a livelihood as street-sellers and televators.

DALLAS, Texas, April 18.—Reports that he had been killed in East Texas and his body badly mutilated were declared to be exaggerated by "Lone Wolf" Gonzaulles, prohibition agent here.

"Say, I understand they got 'Lone Wolf' over in East Texas," a voice over the telephone informed the prohibition headquarters here.

"No, there must be some mistake about that," replied Gonzaulles who answered the telephone. "You probably have the wrong dope; I'm not dead."

FORT WORTH, Texas, April 18.—The decision of a jury here recently that Mrs. Goldie White was insane showed that C. E. Myers fatally shot in front of an office building here was the victim of a trick of fate.

Mrs. White, officers believe, in a deranged state of mind, imagined there was some man in the office building whom she should kill. So she sat in an automobile and waited. Myers came out of the entrance. The woman rose and fired.

While dying, Myers repeated over and over again that he had never seen the woman.

But she continued saying, "I got the right man—I got the right man." And she would smile.

Through investigation of Myers' life showed he had an excellent reputation. He left a widow and two little girls.

Advices from Wichita Falls declare Mrs. White had property there valued at \$16,000 or more.

**Rapid Progress
Made On Road**

EASTLAND, Texas, April 18.—Rapid progress is being made on the new Gorman-Jewell road.

Special notice is being taken in the construction of this road as a demonstration is being made by a Holt 10-ton caterpillar tractor and a Russell 12 foot blade grader.

The machinery, operated by two men, worked three quarters of a mile of road in one day doing the work quickly, thoroughly and far more economically than the old way of using numerous teams.

The road, which is of clay, is costing about \$25 per mile.

Attorneys Spends
Monday in Mexia**

B. W. George, County Attorney of Navarro County, from Corsicana spent Monday on business in Mexia. While here he commented in most laudable terms regarding the foundation that is being laid here for bigger and better city. He stated that he was here several months ago and the progress made is very gratifying.

In speaking of the criminal class that Corsicana officers have to deal with, following the Powell boom in Navarro county, he stated that he and other officials of the county expected to prevent as much crime as possible.

From what he says, the bootlegger and the gambling den, the hi-jacker and the bawdy house will not be tolerated a day in the new oil field or elsewhere in the county. The experiences of Mexia and of the past in its own country have given the public an inkling of what they might expect and with their cooperation the lawless element may be suppressed or discarded entirely.

Back hurts you? Can't straighten up without sudden pain sharp aches and twinges? Now listen! That's lumbago, sciatica, or maybe from a strain and you'll get relief the moment you rub your back with soothing, penetrating St. Jacobs Oil. Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on your back, and out comes the pain. It is harmless, and doesn't burn the skin.

Lumber up! Don't suffer! Get a small trial bottle of old, honest St. Jacobs Oil from any drug store, and after using it just once you'll forget that you ever had backache, lumbago or sciatica, because your back will never hurt, or cause any more misery. It never disappoints, and has been recommended for 60 years. (Adv.)

American League Opens This Afternoon

70000 Expected At Stadium In New York City

By HENRY L. FARRELL
(United Press Staff Correspondent)

NEW YORK, April 17.—Seventy thousand fans, the greatest gathering ever at a baseball game, and with the exception of the Dempsey-Carpentier fight, the greatest crowd ever at a sporting event in this country, will be present this afternoon at the dedication of the new Yankee stadium and the opening of the American League baseball season.

In the new structure, which the noted New York Colonels Ruppert and Huston erected at a cost of more than \$2,000,000, the champion New York Yanks and the Boston Red Sox will crack a game of baseball on the bow of the immense structure, and the season will be off.

The formalities of the dedication will be worth the price of admission and the celebrities filling the boxes and posts of honor will exceed the value of the stadium.

Governor Al Smith will toss out the first ball, and will hold the position as the ranking dignitary in a group of guests that will include Mayor Hylen, Police Commissioner Enright, presidents of all the Metropolitan Borough; Major General Bullard, General F. W. Sladen, as well as the big figures of the New York political, professional and commercial world, and the representative of all the soldier and war relief organizations.

With auspicious ceremonies the National Colors will be raised on the towering flag-pole, and under it will run up the American League pennant for 1922, the second won by the Yanks.

Of the team that the "Paying Colonels" bought in 1915 for \$400,000 only two remain on the present championship club, Pitcher Bob Shawkey and Firstbaseman Wallie Pipp. The opening day crowd of the Colonel's first season as magnates drew 16,000 fans. Today after seven years in which they have taken chances that cast doubts upon their business acumen, those two colonels may have the privilege of viewing long lines of cops holding back crowds that cannot get into a vast amphitheatre that will hold 70,000.

Bob Shawkey, one of the first ball players to enlist during the war and the idol of the Yankee fans, has been given the honor of pitching the first game and he probably will be opposed by Howard Ehmke, a newcomer to the Boston ranks from Detroit.

All of the reserved seats had been sold this morning when a bright, warm sun broke through clear skies and filled the city with more than spring heat. Fifty thousand unreserved seats, more seats than were available in any park last season, will be placed on sale at noon when the gates open.

As it will be the opening of the season and the dedication of baseball's greatest monument, so also it will mark the return to baseball of Frank Chance, who rose to heights as the peerless leader of the old Chicago Cubs and who later touched the depths as the pilot of the Yanks when the New Yorkers were floundering around in their lean days. "Old Husky" will make his debut as manager of the Boston Red Sox, the so-called second team of the Yanks.

Miller Huggins, manager of the Yanks, promised this morning that Everett Scott would be able to start his 98th consecutive game at shortstop. An injury to Scott's ankle sustained a week ago made it feared for a time that he would not be able to start and that the most marvelous record of stamina and iron man work in baseball would reach the end. With Scott at shortstop the Yanks will present the same line-up that won by one game the pennant of 1922.

Legislature Is Down To Work

AUSTIN, Texas, April 18.—With the initial flush bills and resolutions over and with Governor Pat Neff having relieved himself of what he thinks about means of revenue and law enforcement, the second call session of the Thirty-eighth Legislature is settled down to routine work today.

Practically all of the legislative work during the next few days is expected to take place in committee rooms as various measures are considered.

Governor Neff's quo warranto officers' ouster bill, included in recommendations incident to his message yesterday, is expected to cause the biggest fight of the entire special session, but until actual consideration of it begins in the Senate nothing especially interesting is anticipated regarding it.

Other recommendations for legislation made in Mr. Neff's law-enforcement message were:

Strengthening of the prohibition laws.

A law providing that in criminal prosecutions counsel for the state shall have a right to argue the fact that defendant failed to testify in his own behalf.

The so-called anti-technical bill, providing that no case, civil or criminal shall be reversed for technical reasons that do not in any way touch the merits of the case.

The house yesterday reported favorably the bill levying a 5 per cent production tax on oil, and the Smith bill providing for collection of delinquent taxes.

The bill levying a gross receipts tax on athletic exhibitions motion picture shows, bowling alleys, and cold drink dealers was reported unfavorably in the house, but a minority report favoring it was also handed in.

The Senate committee considering the bill forbidding the prison commission to pay notes for deferred payments on the Fort Bend cotton oil mill at Richmond reported that measure favorably.

CLASS CONTEST IS UNCHANGED ACCORDING REPORT

The contest in the election of a May Queen for the High School carnival remains unchanged today. The standing as reported Tuesday is the same with another thousand votes being credited to Dorothy Parker, Senior.

The other classes have not turned in their votes that they are keeping up their sleeves and which are keeping all others guessing. Each class knows that the other one is holding back votes but does not know how many.

Jesse Mae Sherrill has 1960 votes; Miriam Bass, 1636 and Mary Porter Travis, 1060, according to the last tabulation.

The contest continues with interest increasing and the spirit of rivalry between classes characterized by fairness. A member of the Freshman class describes it as follows:

On We Go With the Queen When we started this race, It seemed so much in fun But now we all realize, We must all take a run

Now the "Seniors" come first, The "Sophs" then come round The "Juniors" take a start, The "Fish" are always bound.

Of course, we're last, And we will make you frown, When we once get a start, We'll surely get the crown. (The thing we're after.)

We hope there will be no hard feelings And may no one shed a tear But only take it with ease, And wish them luck next year.

Dancing Contestant At Houston Charged With Army Desertion And Now Faces Arrest Charge

AUSTIN, Texas, April 18.—V. V. Vestal, 23, who with Miss Goldie Hughes established a record of 40 hours and 10 minutes for partnership continuous dancing at the dancing contest here recently was under arrest here today on information from San Antonio that he is a deserter from the United States army.

Deputy Sheriff J. B. Gordon, who made the arrest is expected to take the prisoner to San Antonio today.

According to information here Vestal is alleged to have deserted March 6, from Fort Sam Houston. Officers there reading an account of the dancing contest in San Antonio papers recognized his name and wired authorities here requesting that he be placed under arrest.

Railroad Rates On Lumber Said To Be Too High

WASHINGTON, April 18.—Certain railroad rates on lumber from Texas points to gulf ports, Laredo, Texas, and New Orleans, today were adjudged unreasonable by the Interstate Commerce Commission. Reparation was awarded the Kirby-Bonner Lumber company which complained against the Dictator General of Railroads.

Trolley Hits Auto Three Are Killed

CINCINNATI, O., April 18.—Three persons were killed instantly and one may die as a result of a crash between a street car and an automobile here today.

The dead: Dr. William Kratz, 28. Roland A. Myer, 36, Packing company official. Mrs. William Ender, 25.

The injured person is Mrs. Margaret Nebbergall, 22, who suffered scalp lacerations and concussion of the brain.

Car men said the autoist piloted his machine directly into the oncoming tram. The automobile was wrecked and its occupants hurled through the windshield.

TEXAS TABLOIDS (By United Press)

DALLAS.—Dressed in a "King Tut" dress, woman sat in the rear of an automobile in the downtown section here last night and calmly watched her two male companions hijack R. F. Jordan and relieve him of \$38. Police are searching for the "flapper bandit," who was described as "young and beautiful."

SAN ANTONIO, Texas, April 18.—Nineteen locally owned pigeons broke the world's carrier pigeon record this last week end, it was made public last night. The birds were liberated at Kansas City Saturday. The first one flew the distance of 705 miles in 12 hours, 51 minutes and 40 seconds. Nineteen of the flock broke the record for that distance.

CLEVELAND, Ohio, April 18.—Miss Madelene Wolf set a new record for continuous dancing here. She danced 73 hours when she stopped at 1 p. m. She started at noon Sunday.

OIL

Important developments during the past few days at the Moody well at Tehuacana, which is about to be completed, have commanded the keen attention of the oil men of the Mexia district and several lease deals and royalty interests have been consummated. Today Judge H. B. Daviss and W. L. Adamson announced the offering of undivided lease assignments in ten acres directly offsetting the Moody well.

There was considerable active trading in leases that adjoin the Moody lands and it is reported that one deal was made Monday for one hundred dollars per acre.

The bringing in of this well would mean more to the oil and general business interests of Mexia than anything that has happened since the bringing in of the Roger's discovery well by Col. Humphreys several months ago. It will mean the development of extensive territory to the north and northwest of the main Mexia field. Parties interested in the Bounds lease where Gov. Swisher has two wells under development were here yesterday and they plan to begin work at once on the wells they have already started.

The Moody well is now being drilled with standard tools and the drilling is in charge of Fred Hogue, who has had an extensive experience in standard drilling in the fields of Oklahoma and Kansas, who is watching every foot of the drilling. To show that the driller and his crew have faith in this well they have put their money and are giving their labor in exchange for interests in the well and acreage. Scouts of the big companies and oil operators are on the lease daily and watching every move. Oil and gas and other indications that mean much to oil men have been found during the past few days.

W. L. Adamson, with Judge H. B. Daviss who are making the offering for undivided interests in the ten acres that adjoin the well are meeting with a good response from the people of Mexia and outside interests. It will be remembered that Mr. Adamson is owner of the famous tract in the main field that has produced a fortune in royalties and he is an old time Mexia resident. The Moody well has been several months in development and it has been through the efforts of Charles P. Tindley and Fred H. Butcher, who were early operators in the field with Judge H. B. Daviss that the development has been made. They also have several Houston and Goose Creek oil men who are financing the drilling of the well. Big crowds are at the well daily and it is estimated that more than a thousand people were there last Sunday.

A large crowd of Mexia fans is expected to accompany the Gushers to Marlin Thursday, for the opening game in the Texas Association. Marlin is making preparations for the opener and when the local fans get there, they will find a solid town backing the Bathers and a strong team contending for the honors of the day.

NECHES FLOOD WATERS ARE RECEDED TODAY

BEAUMONT, April 18.—Flood waters from the Nueces River and tributaries which have submerged thousands of acres of the low lands and small areas of the residential sections of Beaumont and suburbs during the past week, are slowly subsiding today after having reached to within a few inches of the record rise during the spring of 1922. The greater part of the flooded territory is uninhabited low lands. Stock and other property taken from other places without loss. Crops already planted were destroyed, however.

Gasoline Cut War Now on In K. C.

KANSAS CITY, Mo., April 18.—A rate war threatened here today following the third reduction in the retail price of gasoline in a month.

The second cut in one week came today when the Standard Oil Company reduced gasoline to 16½ cents a gallon here. Two other reductions of one cent each previously had been made. The announcement of the Standard Oil Company was followed by statements that other filling stations would meet the new price.

The Standard Oil Company made no explanation in announcing the new price.

Gasoline at the present price is being marketed at a loss," O. H. Wilkins, president of the Mutual Company said. But we must meet competition at any cost. I estimate we will lose about two cents on each gallon at the new price."

Eight Texas League Teams Step To Bat

CHICAGO, April 18.—Railroad workers of the country believe they are in line for pay increases.

Representatives of more than 2,000,000 employees are preparing to go before the railroad labor board and demand wage boosts to the 1921 peak.

Recent increases in business placed the companies in a financial position to meet the advance in pay, union leaders contend.

By RICHARD FREEMAN

(United Press Staff Correspondent)

DALLAS, Texas, April 18.—Eight teams of the Texas League took the mark today in the seventeenth annual race of that pastime outfit.

Last minute efforts of teams throughout the loop to plug holes here and patch cracks there have put each club in good shape, owners and managers declared, and everything was set for a season "bigger and better than ever."

Fort Worth was to see her pride and joy in action with the neighboring nine from Dallas, Wichita Falls was in Louisiana to meet Shreveport, Galveston was at Beaumont, and San Antonio at Houston.

At the Panther City, the weather was reported fair with game time 3:30 p. m. Shreveport also had smilng skies and was to get started at the same time. Excellent baseball weather was reported at Houston, where the conflict starts at 4 p. m.

At Fort Worth the limelight will be shared by Vache, newly purchased outfielder of the Steers, Wachtel, premier spitballer of the Panthers, and Haley, the Cats' veteran third baseman. Much depends on the way these men come through this year.

Probable batters: Dallas Conley and Adams; Fort Worth: Wachtel and Haworth.

Interest is at high pitch in the Spudder-Gasser contest at Shreveport. Wichita Falls is conceded to be one of the best teams of the loop with such men as Whiteman, Bescher, Tanner and Cotter forming a nucleus for a strong aggregation.

Shreveport enters the race as an undertermined factor, with a host of new faces on the roster. Special interest will be attached to the actions of the Gassers newcomers. Probably batters: Wichita Falls: Wheeler and Bischoff; Shreveport: Rose and Torres.

Galveston enters a strong team in the opening series at Beaumont. Up on the panning out of Brown, third baseman, and the pitching staff, depends much. The Exporters have a powerful outfield and a good pitching staff. The infield, with the exception of Strong at first, remains to be proven. Probable batters: Galveston: Caldera and Lothes.

San Antonio looms up as a potent contender as they line up for their start with Houston. With a powerful infield, strong outfield, and good pitching staff, the Bears look very formidable. Houston, like Shreveport, is somewhat of a mystery. The newcomers, of which there are many, must make or break the team. Probable batters: San Antonio: Couchman and Coleman; Houston: Bailey and Griffith.

"Say It with Cement!" Center's Slogan

By HENRY L. FARREL

United Press Sports Editor.

NEW YORK, April 18.—Little Center College, from the hills of Kentucky, is spectacular in everything it does. That is one large reason why Center is no longer little. With a spectacular football team that appealed in every way to the imagination, Center blazed her name in big letters all over the country and her team grew right out of Danville.

Center is going out after a new stadium and the college leaders are going about getting it in the same spectacular way. A campaign slogan of: "Say it with cement" was adopted, and friends were asked to "kick in" with a barrel or two. More than \$20,000 was raised around Danville, but that will not be enough.

"Uncle Charley" Moran, the football coach, who mends the shoes of his boys and sews their uniforms, went about the new project with the same vim and enthusiasm. Uncle Charley and his footballers did all the grading of the field and they are going to do as much in actual construction of the stadium as they can.

Approximately 18,000 barrels of cement will be needed to build the stadium, and it comes at \$3.15 a barrel. On section costs \$500. The "Prayin' Colonels" want some of their friends in the east to:

"Say it with cement."

Ping Bodie used to be one of the "eatinest" ball players in the big leagues when he was playing the outfield and clowning with the New York Yankees. His talent at the table once led a humorist among the baseball writers to propose a spaghetti eating contest, in which he would back Ping against all comers.

Ping heard about it after he had left the big leagues and was playing out on the Pacific Coast and his warm Latin blood boiled with indignation.

"I eat less than anyone on our ball club. As Essick, the (manager). He allows he three bucks a day fro grub and I only spend one."

If the price of spaghetti is not higher in California than it is around Little Italy in New York, Ping could get enough yards of the dish for a buck to founder a couple of less ravenous appetites.

**Many Americans
In London to See
Royal Matrimony**

LONDON, April 17.—Legions of American sightseers are descending upon London to catch a glimpse of royal splendor in matrimony.

The wedding of the Duke of York, who some day may be King of England, to Lady Elizabeth Bowes-Lyon, scheduled for April 26, is the object of their curiosity and the increasing numbers landing from every boat from New York caused one newspaper to remark: "It is the typical democratic love for the aristocracy."

With these new arrivals and the hastening of preparations for the marriage ceremony, London town itself is beginning to take on a carnival appearance.

A brilliant, luxurious pageant setting is being prepared for the regal ceremony. Presents are pouring into the royal residence, stands are being constructed along the route the wedding procession, tickets for the reserved section are being eagerly sought, the aristocracy of England is preparing and newspapers are filled with news of the impending royal wedding.

Lady Nancy Astor, always distinctive, sent to Lady Bowes-Lyon today one of the curious little articles of furniture peculiar to Europe called a "what not." It is an arrangement of mahogany shelves which would stand in the front parlor of a "Main street" home and contain all the trinkets and bric-a-brac of the household.

The papers are reviving rumors that the Duke is slated for appointment to an unnamed Colonial government.

Still In the Air

DAYTON, Ohio, April 17.—Still in the air after twenty-one hours of continuous flight Lieutenants John A. MacReady and Oakley Kelley, in the huge army transport T-2, at 7 a. m. today were circling their course at a steady pace.

Shooting at a new world endurance record which they have determined to wrest from the French Air service, the premier pilots have already established a speed record of seventeen hours and seven minutes for 2,000 kilometers.

To equal the French endurance record the T-2 must remain in the air until 7:40 p. m. today.

Ground observers declared the roar of the low compression engine as the T-2 swept over the forty-eight lap of its triangular course indicated the plane is behaving excellently.

DEPUTIES KILLED

**Austin Rangers
To Be Welcomed
As League Opens**

AUSTIN, April 18.—Extensive plans have been made by local business men and sport followers for the opening day here of the Austin Ranger baseball team, the stockholders of which are 20 Austin business men and professional men.

The Rangers after a two-day stay in Waco in contests with the Waco Indians will return here next Saturday for the initial Texas association game to be played in Austin.

The Sherman Red Sox will be the opposing club.

Will Stage Parade

A majority of local business houses will close up Saturday afternoon to give employes and employers alike time to attend the game.

According to President Doe Brownlee of the Rangers, Austin business men and both Sherman and Austin teams will stage a parade at 1:30 the afternoon of the contest.

Win That Trophy.

President Davidson of the Texas association has put up a magnificent loving cup to be awarded to the chamber of commerce of the town in the circuit that shows the greatest opening day attendance.

Austin fans will compete with Marlin, Mexia, Sherman, Corsicana and Waco.

Manager Johnson of the Rangers is not as yet in a position to name his mound selection for the game. Both team managers will make this announcement during the coming week.

One point of interest local fans will have in the visiting team is that Ralph Swede Lind, local athlete, is a member of the Sherman hurling staff.

Lind is a right hander and stood

all the boys on their heads last year in the T-O league. He will in all probability be used on the mound against the Rangers one of the initial contests played here.

Swede is a popular athlete both here and in Sherman. He is cousin to Otto Swede Lind, who left yesterday morning to join the Roswell club of the Panhandle-Pecos valley league.

The Rangers are now in Houston playing exhibition games with the Houston Buffs. Johnson and his crew will return tonight to the city and train Monday, Tuesday, and Wednesday for the Waco contests Thursday and Friday, then comes the big day for Austin fans Saturday.

Lake Austin Game Postponed

There are possibilities of the Rangers and Longhorns staging an exhibition contest today.

Coach Billy Disch and his varsity athletes are behind the club. The short horns were scheduled to play the Lake Austin Independents on the same day that the Rangers open here, but Disch has called the contest off so that his men can attend the Ranger-Sox battle.

**OKLAHOMA BANDITS
STILL ACTIVE**

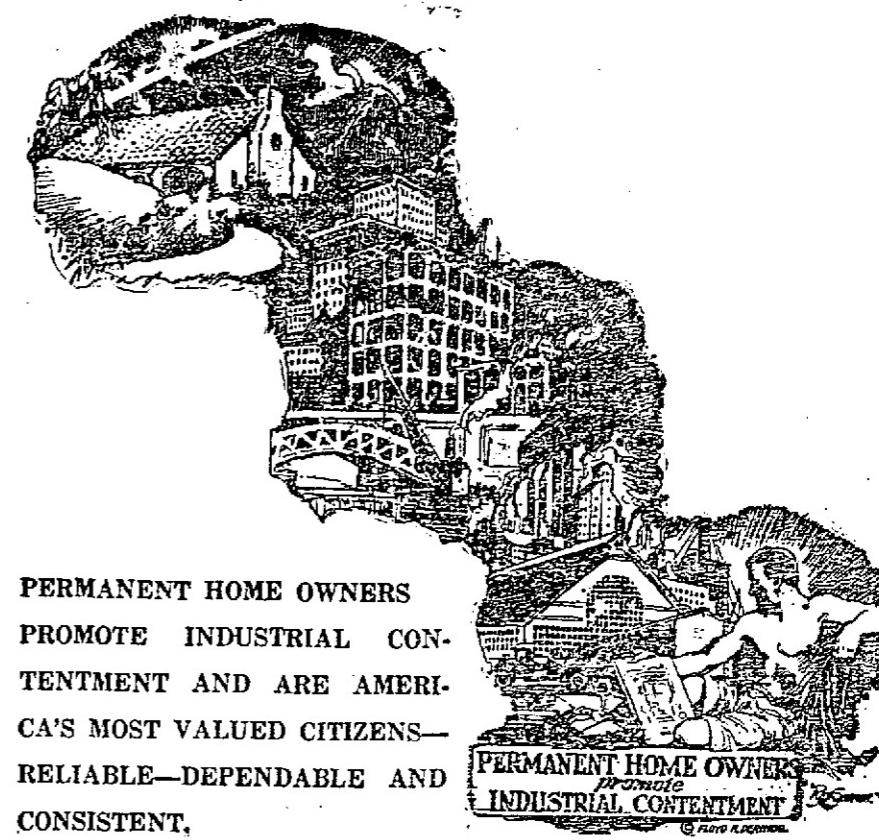

PAUHUSKA, Okla., April 18.—Robert Wilkerson, police chief's son, and Shorty Harrison, a taxi driver, were probably fatally wounded when they came upon five men attempting to rob the postoffice here early today. The bandits met the men with a volley of shots. Shortly after the volley, the postoffice was shaken by a charge of dynamite which blew the vault door away. The noise attracted a crowd and

the bandits were forced to flee without any money.

WHEN DOES AN OFFICER'S DUTY END?

No peace officer should decide the measure of a man's guilt. That is what courts, Judges and Jurors do. In this country every man is considered innocent until proven guilty, despite what the officer making an arrest may have every reason in the world to believe. This is said with particular reference to receipts that are said to have been issued promiscuously by officers and alleged officers in various portions of Limestone County. It is not known in what numbers such receipts for fines collected have been issued, but many times, the complaint has been heard and the charge made that men posing to be officers of the law as well as officers themselves have received monies on the spot when they made an arrest, turned the victim loose, and then left a question in his mind and in the minds of many citizens as to just where the line went. The practice is not alleged to be very general but however few such acts may have been, they were fraught with evil results and no amount of effort to suppress reports regarding them could possibly have succeeded. First, they give the bad-tempered a chance to pose as the law. Secondly, it affords temptation to many officers, however honest and sincere, of those they might be. Thirdly, they set tongues to wagging and the go to the lips of lame Rumor, soon magnified. And above all it is not right. It is not the way to do things in this country.

Nothing less than the highest admiration is always entertained for the peace officers, chief of police, constable, sheriff or their deputies who, unafraid and tireless, feed the earth that they take when inducted into office. Under the very best of conditions, such task is difficult. Without them the world would soon be dominated by the anarchist party, the wild savages of barbarian land to loot with savagery even in the camp in the turpentine camp of Senator T. J. English of Florida, where he was so abused, according to his allegations. However, one does not have to look beyond the borders of Texas to find plenty of subject material for a discussion of the proper and improper treatment of inmates of jails, penitentiaries and prison farms. He does not have to confine himself to any particular period of time, either, for it seems that inhuman treatment has been accorded those in the shackles of iron bands even prior to the time that galley slaves were mercilessly beaten while their backs were bent to the oars of the ancient navies. Jesus, Himself, took note of the

THE GOLDEN RULE IN PRISON

Now comes a seventeen year old boy, from Washington, D. C., charging that he had been flogged and mistreated in such a manner as to cause the wild savagery of barbarian land to loot with savagery even in the camp in the turpentine camp of Senator T. J. English of Florida, where he was so abused, according to his allegations. However, one does not have to look beyond the borders of Texas to find plenty of subject material for a discussion of the proper and improper treatment of inmates of jails, penitentiaries and prison farms. He does not have to confine himself to any particular period of time, either, for it seems that inhuman treatment has been accorded those in the shackles of iron bands even prior to the time that galley slaves were mercilessly beaten while their backs were bent to the oars of the ancient navies. "LIQUID GOLD"

Tonight the popular Love Time Revue, which has been entertaining packed houses nightly at the Opera House will present a new play of the oil fields entitled "Liquid Gold." The story is about the doings and love affairs of some oil field workers, who are partners in an old well that turns into a gusher and makes the oil rich. The comedy is rich and there's loads of it. Billy Van Allen carries the chief load as an oil field worker, who never likes to work, and Ethel Montrose as his wife, who threatens to turn him out; is his able assistant in the funmaking. All the big cast of principals will also have good roles, and there will be plenty of tinkling, whistling, peppy musical numbers, led by the singers and danced by the nimble bunch of chorus girls that the show is noted for.

The comedy must be seen to be appreciated. An entire change of pictures will also be shown.

prisoner's need of a friend, in that marvelous scripture where among other things He said "I was in prison and ye visited Me." Mayor Ernest Watson of this city has the proper view point in regard to the kind of treatment that should be accorded men and women who may be arrested. The other day, he admonished a peace officer here that when he makes an arrest, he should place himself in the position of the one arrested and then treat him as he would like to be treated if in the same shoes. His words, too, should be heeded by the County which is now using the City jail here.

When America relinquishes its claims and its proud position in the world of being a Christian nation; when its citizenship are content to see its Constitution torn to shreds and trampled beneath the iron foot of oppression, and when each officer and every jail are acknowledged as being the law unto themselves, there will be the awful beginning of that frightful rule when the Golden Rule may be discarded as of no consequence and without discipline.

Until then, however, let the application of its doctrine be injected daily into all walks of life, even into prison cells.

The News invites the public to discuss the subject in the editorials appearing in this paper daily, and especially with reference to the one appearing Tuesday, when it was urged that distinguishing names be applied to our schools, library, Y. M. C. A. and cemetery.

**Ft. Worth Man Was
Killed By Woman
Declared Insane**

FORT WORTH, Texas, April 18.—The decision of a jury here recently that Mrs. Goldie White was insane showed that C. E. Myers fatally shot in front of an office building here was the victim of a trick of fate.

Mrs. White, officers believe, in a deranged state of mind, imagined there was some man in the office building whom she should kill. So she sat in an automobile and waited. Myers came out of the entrance. The woman rose and fired.

While dying, Myers repeated over and over again that he had never seen the woman.

But she continued saying, "I got the right man—I got the right man." And she would smile.

Thorough investigation of Myers' life showed he had an excellent reputation. He left a widow and two little girls.

Advices from Wichita Falls declare Mrs. White had property there valued at \$15,000 or more.

Rapid Progress Made On Road

EASTLAND Texas, April 18.—Rapid progress is being made on the new Gorman-Jewel road.

Special notice is being taken in the construction of this road as a demonstration is being made by a Holt 10-ton caterpillar tractor and a Russell 12 foot blade grader.

The machinery, operated by two men, worked three quarters of a mile of road in one day doing the work quickly, thoroughly and far more economically than the old way of using numerous teams.

The road, which is of clay, is costing about \$25 per mile.

Navarro County Attorneys Spends Monday in Mexia

B. W. George, County Attorney of Navarro County, from Corsicana spent Monday on business in Mexia. While here he commented in most laudable terms regarding the foundation that is being laid here for a bigger and better city. He stated that he was here several months ago and the progress made is very gratifying.

In speaking of the criminal class that Corsicana officers have to deal with, following the Powell boom in Navarro county, he stated that he and other officials of the county expected to prevent as much crime as possible. From what he says, the bootlegger and the gambling den, the hi-jacker and the bawdy house will not be tolerated a day in the new oil field or elsewhere in the county. The experiences of Mexia and of the past in its own country have given the public an inkling of what they might expect and with their cooperation the lawless element may be suppressed or discarded entirely.

OUCH! LUMBAGO! RUB PAINS FROM SORE. LAME BACK

L. J. Ingram is erecting for himself a new home at the corner of South McKinney and Tyler streets. It will be a 7-room brick veneer cottage, modern throughout and will cost about \$7,000.

Mr. Ingram will build a couple of rent cottages on the lots lately occupied by the Acme Lumber company.

Thus the substantial building program goes ahead. Shacks are now being torn down or moved and permanent homes are being built all over the city.

DALLAS.—A large number of Texas public utility men are members of the new Utility Advertising Association which will meet in June in Atlantic City as part of the Associated Advertising Clubs. Membership in the public utility section is now 268.

The fire boys flushed some of the business streets last night and thus got rid of a lot of accumulated mud.

Be All Off With Him
From the Toledo Blade
Our guess is that if President Harding suited, the democratic critics the republicans would have nothing to do with him.

As Modest as Brookhart
(From the Indianapolis Star)
After William Z. Foster gets through with his present case he might be tried on a charge of undue modesty.

Declaring it to be a breach of court etiquette to be so "disgracefully decorated" a Detroit judge ordered two girl witnesses to wash the paint from their faces before taking the stand.
